

```
kblib::detail_poly  
::erased_construct_helper  
< construct_type::copy_only >
```

A diagram showing two boxes. The bottom box is white and contains the text 'kblib::detail_poly', '::erased_construct_helper', and '< construct_type::both >'. A blue arrow points upwards from the bottom box to the top box. The top box is gray and contains the text 'kblib::detail_poly', '::erased_construct_helper', and '< construct_type::copy_only >'. This indicates that the 'copy_only' version inherits from the 'both' version.

```
kblib::detail_poly  
::erased_construct_helper  
< construct_type::both >
```
